## About the Journal

Journal of Technology and Community Service (TEKIBA) is a multidisciplinary scientific journal published by the Faculty of Engineering, University of PGRI Banyuwangi with registration number ISSN 2776-947X. This journal deals with information about ideas, implementation and achievements of Community Service activities. The publication of this journal aims to disseminate conceptual thoughts or ideas and research results that have been achieved in the field of community service. TEKIBA is a journal of community service results in the field of Applied Technology and Engineering which discusses Mechanical Engineering, Electrical Power Engineering, Control Engineering, Electronic Engineering, Information Technology, and Applied Engineering. Published regularly twice per year in April and November by the Faculty of Engineering, Universitas PGRI Banyuwangi.

## Aim and Scope

The purpose of TEKIBA is to be a platform for Scholars, Academics, Researchers, Writers, Engineers, Technicians, and others through the promotion of discoveries, views, innovations, analyzes, and new research results in various fields of electrical engineering to advance and develop technology for a better life. The TEKIBA is concerned in a wide-scope including all related partial topics, but not limited, such as:

- Mechanical Engineering
- Electrical Power Engineering
- Control Engineering
- Electronic Engineering
- Information Technology
- Applied Engineering

## Call for Paper

The TEKIBA invites you to submit your research works via our online submission system or through E-mail at [tekiba@unibabwi.ac.id](mailto:tekiba@unibabwi.ac.id) or [tekibabwi@gmail.com](mailto:tekibabwi@gmail.com). Make sure that the submitted manuscript should not have been submitted or published previously anywhere else for publication. All received manuscripts will go through Peer Reviews and plagiarism checker.

Frequency: 2 Issues per year April and November.

Areas Covered: Jurnal Teknologi dan Pengabdian Masyarakat Accepted Language: Indonesian Only

## Publication Charges

The TEKIBA is published with CHARGE for the author.

## Open Access Statement

The TEKIBA follows Open Access as a publishing model. Based on this model, each paper is provided hopefully immediate, worldwide, barrier-free access to the full text for everyone. In this model, the publication costs are covered by the publisher with all published manuscripts that are freely available to all interested online readers.

## Content Disclaimer

The views and opinions expressed in the articles published in this journal are not TEKIBA views or opinions. In each article, the author is responsible for own content. TEKIBA has the right to make changes or deletions of content at any time without notice. TEKIBA does not state or guarantee that the information available on or through the website will be true, accurate, timely or reliable. Any research content written by the author is the opinion of the author and is not intended to defame religion, ethical groups, clubs, organizations, companies, individuals or anyone or anything. Any errors in the content found are the writer's mistake.

## Author

The authors should use a template and follow the instructions set. In detail, the manuscript should be written in the maximum of ten pages with type 'Times New Roman' font style, and following the TEMPLATE of TEKIBA and the accepted manuscript must be accompanied with the COPYRIGHT of TEKIBA. Each reference should be cited in the main related passage and it should be written using a Reference tool, such as Mendeley or Zotero using the IEEE style.
